

LAMINEX[®]

Lexzar[®] High Performance Protective Coating

Independent lab testing show, Lexzar is more than 5 times tougher than the competition. Laminex[®] Lexzar is a high performance coating based on proprietary polyurea technology with exceptional abrasion and tear resistance. This heavy-duty protective coating is virtually indestructible. It can also provide a non-skid surface as well as sound-deadening properties. But, there are other reasons why OEM Manufacturers chose Lexzar.

THE NEXT GENERATION IN TOUGHNESS

- ZERO VOC's
- Fast Cure – Dries Rapidly (Tack-Free 5 to 10 Minutes)
Great for High Throughput Processing
- Passed “Flammability of Interior” Federal Burn Test
FMVSS #302
- High Elongation – Creates High Flexural Strength
- Low or High Build Coating – Up to 500 MILS
- Waterproof Seal – Creates a Water Tight Barrier
- Durable – Looks Better Longer
- Chemical Resistant – Excellent Chemical, Oil, and
Gasoline Resistance
- Environmentally Resistant – Moisture, UV Rays
- No Mixing – Sprayed Through a
Plural Component Spray System

FRP Part Reinforcement

RV & Trailer Ramp

Water Containment

Floor Coating

LAMINEX[®]

Lexzar[®] High Performance Protective Coating

Extreme adhesion to a variety of substrates including fiberglass, metal, aluminum, galvanized steel, wood, OSB wood, plywood, luaun, concrete and masonry.

Every Manufacturer has different application requirements based on their products & production process. We provide custom solutions to your application needs.

Available Colors - White, Black, Lt. Gray, Med. Gray, & Green

Some metal substrates may require a special primer for the ultimate bond

STANDARD APPLICATIONS

- Utility Trailer Ramps
- Compartment Coating
- Deck Coating
- Secondary Containment
- Protective Liner
- Pipe Coating
- Engine & Bilge Compartment
- Tool Box Coating
- Undercarriage Coating
- Reinforcing Coating
- Rust Proofing Coating
- Carpet Replacement
- RV Roofs, Ramps & Floors
